

**INDOOR AND OUTDOOR FURNITURE**

70

The Giorno Notte (Day Night) range of furniture was designed by a company which has operated for more than thirty years in the nautical industry. The goal of the designers was to create a collection of furniture that was perfectly suited to both elegant interiors and sophisticated outdoor living. The company selected stainless steel, a material that they utilise often in their nautical work. The use of stainless ensures that the furniture will remain durable and aesthetically pleasing for many years.

The Giorno Notte line of furniture now includes a deckchair, sun-bed, multi-functional chair, porch-swing, lamp, fire tray and a number of traditional chairs and tables.

Location | EUROPE

Environment | INDOOR AND OUTDOOR

Product | ROUND WELDED TUBES

Fabrication process | BENDING AND WELDING

Grade/surface | TYPE 316TI/POLISHED

Material thickness/diameter | 2 MM THICK/20 MM DIAMETER

Weight
