

HOME AND OFFICE APPLIANCES

DOOR LOCK PRODUCT

Door-lock ware has to undergo complicated manufacturing processes, such as deep drawing, hydraulic pressing, heat treatment, etc. Moreover, it must stay clean after repeated contact with people's hands. Austenitic stainless steels offer excellent formability and surface cleanliness.

LOCATION/ENVIRONMENT	Taiwan, China - indoor, outdoor
PRODUCT	Cold sheet
FABRICATION PROCESS	Deep drawing
GRADE	SUS 304 (18Cr-8Ni), SUS 304Cu (18Cr-8Ni-1Cu)
SURFACE	2B
COMPETING MATERIAL	Copper
DATE OF COMPLETION	2005
MANUFACTURING COMPANY	Tong Lung Metal Industry Co. Ltd. Taiwan Fu Hsing Industrial Co. Ltd.
MATERIAL SUPPLIER	Japanese company – Yieh United Steel Corporation (YUSCO)
SOURCE OF INFORMATION	Yieh United Steel Corporation (YUSCO)
REMARKS
