

TRANSPORT

Timber truck and trailer

These timber truck structures are made from temper-rolled stainless steel. They are easy to maintain, strong and provide optimal performance. The banks are made of stainless steel material in strength class +C850 (Rm > 850 MPa). The polished, corrugated safety wall is in the strength class +C1000 (Rm > 1000 MPa).

LOCATION/ENVIRONMENT FINLAND/OUTDOOR

PRODUCT COLD ROLLED STAINLESS STEEL SHEET (HIGH STRENGTH)

FABRICATION PROCESS LASER CUTTING AND ARC WELDING

GRADE EN 1.4318 2H +C850 AND +C1000

SURFACE COLD ROLLED 2H

COMPETING MATERIAL ULTRA HIGH STRENGTH STEEL, ALUMINIUM ALLOYS

DATE OF COMPLETION 2006

MANUFACTURING COMPANY ALUKARIKKA

MATERIAL SUPPLIER OUTOKUMPU TORNIO WORKS

SOURCE OF INFORMATION EURO INOX
